PRICES OF PRINTS

FALL RIVER (Mass.) Nov. 18.—C. D. Bellon, owner of the largest printing plant in the city, today dropped all kinds of prints at 25 cents per yard, except sheet music which he dropped one-quarter of a cent. Owing to the strict censorship maintained in Venezuela, it is impossible to learn details of the Venezuelan - Colombian armistice. The flooded condition of the frontier country also assists in holding back the news of this agreement. It is reported that this armistice was also signed between the Colombian Liberal revolutionaries and the Colombian government, and that it will terminate November 20.

To Cure a Cold in One Day. Lasagna Broto Quince drageates refund the money if it does not work. E. V. Grove's signature is on the scale of the past fortnight.

COAST RECORD.

**STANDARD OIL
MAN GUILTY.****Fuller Confessed Taking
Company's Money.****San Jose Friends Will
Try to Save Him.****San Francisco Needs Millions
for Improvement—Prunes
Turned into Vinegar.**

(BY DIRECT WIRE TO THE TIMES.)

SAN JOSE, Nov. 18.—[Exclusive Dispatch.] W. S. Fuller, erstwhile manager of the Standard Oil Company's agency of this city, who was recently returned here from Seattle to answer to a charge of embezzling some \$300 of the company's funds, was before Justice Cobb this morning for preliminary examination. The prisoner looked wan and crestfallen, and a quite different man than last spring and summer. Friends have come to his assistance, and a determined effort will be waged to save him from conviction on the charge.

H. M. Fletcher, assistant auditor of the Standard Oil Company, testified that there was a shortage in Fuller's account of \$335, and Detective Kemble stated that Fuller had made a full confession of the defalcation to him. The case was continued until tomorrow.

LOWENTHAL'S DIAMONDS.SEVEN STOLEN PINS FOUND.
(BY THE NEW ASSOCIATED PRESS—P.M.)

PORTLAND (Or.), Nov. 18.—Seven diamond stick pins valued at about \$200 were picked up today on Park street, from Taylor to Jefferson, and were identified as part of the \$10,000 diamond collection stolen Sunday night from A. F. Lowenthal's room at the Portland Hotel. No arrests have been made in the case, but detectives are rapidly at work. One of the detectives working on the case supplied this list of the stolen jewelry: Fifty-eight diamond brooches, 144 diamond stick pins, twenty-four diamond cluster rings, one diamond star at \$175, one diamond at \$175; one opal heart at \$225, another opal heart at \$325, one wishbone at \$172, one sunburst at \$215, one diamond star at \$160, one harvest moon at \$125, besides other grades of bangles.

The police still stick to their theory that the diamonds were stolen by a professional thief, and are industriously searching for an eastern man, who, it is thought, has been shadowing Lowenthal for some time.

**DIAMOND BROKER'S
HEAVY LOSS.****JEWELS WORTH TEN THOUSAND
DOLLARS TAKEN FROM HOTEL.**

Supposition is That the Thief Obtained Entrance into the Room With a Pass-key Taken from the Pocket of a Janitor.

(BY THE NEW ASSOCIATED PRESS—A.M.)

PORTLAND (Or.) Nov. 18.—F. Lowenthal, a diamond broker of New York, arrived here Saturday evening, and registered at the Portland Hotel. He was assigned a room on the ground floor of the hotel, and placed a trunk containing diamonds valued at \$10,000 and \$200 in gold in the room. Lowenthal says that he left the hotel between 5 and 10 o'clock Saturday night, and that when he returned he found the trunk broken open and the diamonds and cash missing. Detectives were immediately summoned, and from a hasty examination of the premises arrived at the following conclusion:

A janitor of the hotel had a bunch of pass-keys in the pocket of a pair of trousers which were hanging in a closet in the men's room. The theory of the thief who was evidently well posted as to the basement story of the hotel secured these keys, and thus effected entrance to the janitor's room. It is supposed that the robber, who set earing his plunder, made his way through a folding door to the basement, and hence made good his escape.

PRUNES FOR VINEGAR.OREGON PROFESSOR'S FIND.
(BY DIRECT WIRE TO THE TIMES.)

TACOMA, Nov. 18.—[Exclusive Dispatch.] As the result of experiments being conducted at the Oregon State Agricultural College at Salem, prune-growers of the Pacific Coast States will hereafter be enabled to convert their refuse prunes into vinegar of the first quality. The experiments were started last month with the object of ascertaining if large quantities of prunes going to waste in Oregon could not be profitably utilized.

Prof. Morgan of Oregon College, who here, says the experiments have been successful. In four weeks he has obtained vinegar from prunes containing over 2 per cent. of acetic acid, which is a greater quantity than is contained in the purest cider vinegar. It is known in pamphlet form for free distribution, enabling farmers having waste prunes to promptly transform them into vinegar, which will command the highest market value.

NOYES WANTED TIME.COURT REFUSED REQUEST.
(BY THE NEW ASSOCIATED PRESS—A.M.)

SAN FRANCISCO, Nov. 18.—Attorney Francis Henry, on behalf of his client, Judge Arthur H. Noyes et al., presented an affidavit to the Court of Appeals asking that a continuance be granted for the purpose of allowing the respondents an opportunity to secure certain witnesses and deposition necessary to the establishment of the innocence of the accused. The attorney for the respondents also asked the court to strike out certain portions of the evidence, and made a motion to that effect, as the evidence was not of such nature as to be countenanced in a court of record. Following this, Attorney Henry argued that all evidence tending to establish a conspiracy had been struck out, as the existence of a conspiracy between Noyes and McKen-

sie to defraud certain claimholders in the vicinity of Nome had not been proved. In the affidavit, Judge Noyes denied the denial of each allegation that has been made against him. Noyes asks for at least ninety days time, and six months, if possible, in which to make his final presentation. Among those he wishes to cooperate with him are E. R. Beman, now in Milwaukee; Alexander McKenzie, at present in St. Paul; and Archie T. Wheeler, living in Minneapolis. The witness, Chipps, who testified against Noyes, was declared to be unworthy of belief, he having sold out, it was charged, to those opposing the judge for \$75,000.

At the conclusion of the reading of the affidavit, United States District Attorney Wood and Thomas J. Geary, attorney for Alexander McKenzie, stated that he did not join in the petition for stay of proceedings.

The court then adjourned until this afternoon at 2 o'clock.

The failure of the defendants to obtain a continuance, was due to the action of Attorney Pillsbury, the amicus curiae, who said that he would admit the respondent witnesses would testify as to the respondents' right to repudiate the admission blocked the continuance which Judge Gilbert stated the court was prepared to grant.

CONTINUAURE REFUSED.

(BY THE NEW ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Nov. 18.—At the afternoon session the continuance asked for by the defendants was refused. The attorneys then resumed their arguments, which were not concluded at the time of adjournment.

DUNHAM MURDER VICTIM.**SUIT FILED FOR DAMAGES.**

(BY THE NEW ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Nov. 18.—The defendant, James C. Dunham, committed by James C. Dunham, now in jail in 1896 was released in a decision rendered by the Supreme Court today in regard to a suit for damages, instituted by the parents of Minnie Shuler, who was one of the victims of the escaped criminal.

The lower court declared that Dunham received \$1,000 from the Standard Oil Company, and that he had given the sum to the murderer. The Shulers had previously awarded this sum for damages.

The Superior Court maintained that service had been made on Dunham by publication. The Penniman claimed that no jurisdiction had been obtained over him by the court. This plea is upheld by the Supreme Court.

CONSIDINE MURDER TRIAL.**READY FOR ARGUMENT.**

(BY THE NEW ASSOCIATED PRESS—P.M.)

SEATTLE (Wash.) Nov. 18.—All the testimony and evidence for and against John W. Considine, charged with the murder of ex-Chief of Police Meredith, is now before the jury. One witness in the defense was heard this morning, and by special permission, during the afternoon session, up to 3 o'clock was taken up with the defense. The remainder of the defense, after which the defense rested, the remainder of the day, and all efforts to locate the body have failed. Deceased was 49 years of age.

Cargo of Salmon.

(BY THE NEW ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Nov. 18.—The steamer Valencia of the marine salmon fleet arrived here today with 3,000 cases of salmon.

The whaling bark Cayseed also arrived. She brought 600 barrels of oil and 6000 pounds of whalebone.

Hanged Himself.

(BY THE NEW ASSOCIATED PRESS—P.M.)

SALINAS, Nov. 18.—A. Vermouth, a native of Switzerland, committed suicide last night by hanging himself to a tree. He was 42 years of age and unmarried.

Phoenix Personal.

(BY THE NEW ASSOCIATED PRESS—P.M.)

PHOENIX, Nov. 18.—Charles R. Henderson and Charles R. Henderson Jr. of New York, are here for rest and recreation.

Bawies in Command.

(BY THE NEW ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Nov. 18.—Col. J. B. Bawies, Artillery Corps, has taken the place of Gen. Young as commanding officer of this department. Gen. Young having gone to Washington to serve on a board appointed to make recommendations concerning the establishment of new army posts, the abandonment of others, and the improvement of some which are not adequate to meet the present needs of the army. It is expected that the general will return about the middle of December.

Death in Case.

(BY THE NEW ASSOCIATED PRESS—P.M.)

FRESNO, Nov. 18.—The failure of Jefferson G. James to appear in court and answer to the suit begun against him by Agent Borland, of the White Side, to-day caused his default to be entered by Judge Church, and after hearing the evidence, the court gave judgment against James. The lands were originally left to James by Archibald Borland, father of the plaintiff.

Fresno Bond Election.

(BY THE NEW ASSOCIATED PRESS—P.M.)

FRESNO, Nov. 18.—Special bond elections were ordered tonight by the Board of Trustees to determine whether or not the city of Fresno shall construct and maintain an electric lighting and power plant and a dam.

The election will be held on December 19 and 20. It is estimated that the lighting and power system will cost \$250,000, and the water plant \$200,000.

Motions for Dimmick.

(BY THE NEW ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Nov. 18.—Walter N. Dimmick, ex-chief of the mint, appeared in the United States District Court today for sentence upon a conviction on three counts of an indictment, charging him with having failed to deposit \$100,000 in gold bullion to the government. His attorney made two motions, one for a new trial, and the other for arrest of judgment. After argument, the court took the matter under advisement.

Farmer Ridley Insolvent.

(BY THE NEW ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Nov. 18.—L. P. Ridley, farmer of Blacks, Yolo county, filed a petition in insolvency today in the United States Court. He claims \$103,000, and has no assets.

Saw the Fight and Died.

(BY THE NEW ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Nov. 18.—G. S. Snow, a milking maid, was found dead in her bed today, apparently from a fit of the jitters, and the theory is that the thief who was evidently well posted as to the basement story of the hotel secured these keys, and thus effected entrance to the janitor's room.

It is supposed that the robber, who set earing his plunder, made his way through a folding door to the basement, and hence made good his escape.

**MILLIONS OF DOLLARS
NEEDED FOR IMPROVEMENTS.**

(BY THE NEW ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Nov. 18.—The Board of Public Works submitted to the Board of Supervisors estimates for the proposed issue of bonds for the construction of a new sewerage system for this city, the building and repairing of schoolhouses and the acquisition of parks. The board's estimate calls for \$9,000,000.

ESPRESSO WAY OF DOING.

(BY THE NEW ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Nov. 18.—The Southern Pacific Railroad Company has sued the Roman Catholic Orphan Asylum and Archbishop Riordan to have the Superior Court condemn part of the asylum's land for railroad purposes. The railroad wants the land for the construction of two tunnels on its long-shore route. The complaint asserted that the company had negotiated with the archbishop for the land, but an agreement as to the price could not be reached.

BRIEF COAST DISPATCHES.

(BY THE NEW ASSOCIATED PRESS—P.M.)

Greta's Narrow Escape.

(BY THE NEW ASSOCIATED PRESS—P.M.)

VICTORIA (B.C.) Nov. 18.—The greta, which arrived here yesterday from Cardiff, had a narrow escape from death with an unknown ship off the Golden Gate. The stranger passed under her bows during the night. The greta brought 1800 tons of patent fuel for the navy. This fuel is used only in cases where it is necessary to get up steam in a hurry, and is first to this station.

Peculiar Asphyxiation Case.

(BY THE NEW ASSOCIATED PRESS—P.M.)

VALLEJO, Nov. 18.—Charles White, chief boatswain of the Independence, was accidentally asphyxiated last night while asleep. He retired early, and in turning off the button of the electric light evidently turned the gas jet slightly, both being close together.

**Carpets.**

No matter what your needs are, we are prepared to meet them. A room, home, hotel or church—at less price than you expect to pay for reliable makes. Making, laying, lining, every part of the work has our best attention.

The floor covers too large and conspicuous a place in the home not to be adorned with something artistic. The charm of a carpet is in the design, and this is where we make a strong bid for your trade, as ours is the only exclusive carpet store in the city and patterns here are not duplicated elsewhere in the country.

The court then adjourned until this afternoon at 2 o'clock.

The failure of the defendants to obtain a continuance, was due to the action of Attorney Pillsbury, the amicus curiae, who said that he would admit the respondent witnesses would testify as to the respondents' right to repudiate the admission blocked the continuance which Judge Gilbert stated the court was prepared to grant.

At the conclusion of the reading of the affidavit, United States District Attorney Wood and Thomas J. Geary, attorney for Alexander McKenzie, stated that he did not join in the petition for stay of proceedings.

The court then adjourned until this afternoon at 2 o'clock.

MILITARY TO THE FRONT.

We Troops Needed in Hopkins County.

Union Officials Deny Responsibility.

Diaries Hunting for Union Men Who Participated in the Attack.

THE NEW ASSOCIATED PRESS—A.M.]
ADISONVILLE (Ky.) Nov. 18.—The
S. J. Stevens, the man who was
in the battle at Providence Sat-
urday, was a negro who lived here.
Gentlemen who were wounded, one
man and both were union men in
attacking party. Three of the
men were non-union men, negroes,
were guarding the mine.

The battle of yesterday morning
east one thousand shots were fired,
today a portion of the Madison
company and some of the Hop-
kinsville company went to Providence,
men are under the command of
Lt. Thomas. There is a state of un-
prevailing all over Hopkins
City.

Judge Hall and Sheriff Sut-
ters are both at Providence, and under
their directions the soldiers on duty
are scouring the country for an
attempt to discover other members of an
organization who were engaged in yes-
terday's battle. The report that a
bouquet of a military company led by
Couch's attack without foundation,
he negro union miners Couch, who
faded away yesterday, is given the auth-
ority of the public authorities.

War warning has been issued for alleged par-
ticipants in the fighting. It is said ad-
ditional troops will be sent to the city immediately. One of the
mines of the Providence Coal Company is
shutting, but the large mine on which
attack was made is idle. It is said
that the St. Bernard, and other coal
companies of Hopkins county have de-
cided to withdraw from the United
States courts.

The union officials here disclaim re-
sponsibility for the attack, and say
the men who were implicated in
yesterday's affair acted on their own
responsibility.

Orders were issued by President
to the strikers in camp here to
camp at once, and join the strik-
ers in camp at Nortonville. It is be-
lieved the camp here will be broken up
by the strikers.

STRIKERS BREAK CAMP.

THE NEW ASSOCIATED PRESS—P.M.]
ADISONVILLE (Ky.) Nov. 18.—The
training order of Federal Judges-
on's court is having its effect, and
a camp in the immediate neighbor-
hood of the Reinecks mine was broken
up. About 175 men moved.

MARCHING MINERS.

MOVING TOWARD VINCENNES.

THE NEW ASSOCIATED PRESS—P.M.]
WASHINGTON (Ind.) Nov. 18.—Hundreds of coal miners are gathered in this city tonight waiting for a Baltimore and Ohio Southwestern west-bound train, which arrives here 3:30 a.m., to take them to Vincennes, where they will be joined by 500 other miners, who are now marching from Indianapolis to town in this city. Early in the morning they will descend on a Prospect Hill mines there and endeavor to persuade the non-union men to stop work. Late this afternoon a legation of Montgomery miners arrived into Washington and had a conference with the local men, after which they visited the railroad station, and chartered three coaches to take them to Vincennes on the first train.

Tonight word was received that 150 men are marching to Vincennes from Princeton, and several hundred other surrounding mining towns. At 8 o'clock fully 800 men are expected to be massed in Vincennes, and a hour later they will be at the mines. The men are divided into companies, each with a leader. They say they will tolerate no violence, and will employ only lawful methods to attain their ends. They will not return until they have closed the mines down, say, or secured the union seal of approval. They will purchase provisions at Vincennes and will camp out while here. The men at Prospect Hill have been on a strike for several weeks for higher wages. Non-union men have taken their places.

WASHINGTON BRIEFS.

Astronomer Wanted.

WASHINGTON, Nov. 18.—[Exclusive

Dispatch.] The United States Naval Observatory needs an assistant astronomer and the Civil Service Commission will have special examinations December 12, 13, and 14, of candidates for this place. Examinations in California will be held at Los Angeles, Marysville, Fresno and San Francisco. The salary of this position is \$1800 a year.

Gren and Gaynor Cases.

WASHINGTON, Nov. 18.—On motion of Solicitor-General Richards, the United States Supreme Court today agreed to postpone the hearing of the Gren and Gaynor cases until Tuesday next week on account of the death of the wife of Attorney Rose of New York, Rose being engaged for the defendants in the case.

Col. Noyes Retired.

WASHINGTON, Nov. 18.—Col. Henry E. Noyes, Second Cavalry, was retired today on account of age.

Army Surgeon Dead.

WASHINGTON, Nov. 18.—The sur-

geon-general of the Marine Hospital Service has been advised of the death of Acting Assistant Surgeon S. E. Eldridge, who was on duty in the office of the United States Consul-General, at the port of Yokohama.

Purchase of Bonds.

WASHINGTON, Nov. 18.—The as-

sistant treasurer at New York reported

the purchase there today of \$1,715,000 of 4-per-cent. bonds, \$1,640,000 short of

and \$22,000 less.

CHILDREN PERISH IN FIRE.

ANTIGO (Wis.) Nov. 18.—The farm-

house of John Sutcliffe, in the town

of Lagidow, was burned Sunday, and

three children, ranging from three

months to five years, perished.

AFTER the theater, refreshments and music

will be served at Del Monte.

FLASHES FROM THE WIRES.

A natural gas explosion in the main pipe line of the Western Gas Company at Buffalo, Pa., yesterday, caused injuries to six men, two of whom will probably die.

The warehouse of the T. W. Jones Furniture Transit Company in Chicago was destroyed yesterday, the loss being \$50,000, with \$40,000 insurance. Thirty horses perished.

Mary Mark of Wichita, Kan., convicted of killing her babe, born out of wedlock, was yesterday sentenced to twenty years in the penitentiary. Her mother is to be tried as an accomplice.

Max Borchardt, an employee of Francis H. Lagatt & Co., wholesale grocers of New York, is accused of embezzlement to the amount of \$38,000, was arraigned yesterday on the specific charge of appropriating \$113.

Miss Marie Josephine Eastwick, the widow of Philip Eastwick, who died in London to having forged a \$100,000 railroad certificate, was sentenced yesterday morning to six months' imprisonment as a second-degree misdemeanor.

The scarcity of labor in Rhodesia is said to be causing great difficulty, and is pressing for immediate solution. The dilemma which is shown to the importance of Asiatic labor is being met by the experimental introduction of 200 Arabs into the colony, at the instance of Cecil Rhodes.

Alfred F. and Jennie C. Kendall, aged 2 and 5 years, children of Albert Kendall, were burned to death in a fire at their home in the Bronx, N. Y., yesterday. The children were left alone for a few minutes by their mother. It is supposed that one of the children upset a lit candle and an explosion followed.

A trolley car on the Youngstown and Sharon Electric Railway jumped the track in Hubbard, O., while going at a good rate of speed. Frank Nelson of Sharon, Pa., was badly hurt in the accident. Mark Haslett, Wm. Kelly, Bill Copeland, the motor man, and two laborers, received slight injuries.

The dead bodies of Inez Gordon and Harry Grisard, both colored, were found on the floor of a room in Kansas City yesterday. The woman was found to be the man who murdered the woman and killed himself. The woman was shot through the head and heart, and the man was clutching the revolver with which he had shot himself.

WITHDRAWN FROM SALE.

WASHINGTON, Nov. 18.—The Presi-
dent has issued an order withdrawing

from public sale and settlement an un-
surveyed tract of sixteen townships

southwest of and adjoining the Moqui
Indian reservation, in Arizona, now oc-
cupied by about two hundred Navajo
Indians. The action is designed to pro-
tect the Indians, who have received on
the average 1850 acres of land each, of
the whites, and will be in operation
until the Indian occupants have been
permanently settled under the provi-
sions of the homestead or general allot-
ment laws. The Indians have built
large ditches and other improvements.

STEYN'S FAMILY DEPORTED.

BRUSSELS, Nov. 18.—The Petit Bleu

asserts that the wife and family of
former President Steyn of the Orange
Free State have been deported from
South Africa.

RECRUITING IN CANADA.

OTTAWA (Ont.) Nov. 18.—Cab-
grams are passing between the imperial

KNIGHTS OF PYTHIAS.

INDIANAPOLIS, Nov. 18.—Charles P. N. Smith, president of the Endowment Fund of the Knights of Pythias, has

submitted the statement of the Board of Con-
trol for the quarter ending October 1. It shows a total membership of \$9,500, with insurance amounting to \$105,000. The net loss of members during the quarter was 964.

RIFLE SUCCESSES SWORD.

LONDON, Nov. 18.—The Indian

government," says a dispatch from

the Daily Express, "has abdicated the sword for the cavalry,

which they visited the railroad

rent, and chartered three coaches to

take them to Vincennes on the first

train.

As if that were not enough, I will

mention another case. The colonel of

regiment made a speech to the British

people in the name of the Queen, and

then he turned his back on the audience

and said, "I am convinced that there is no en-
bailed body perfume surrounding

Mr. Brodrick, yet the utter incom-
petence of the Salisbury minister in

the conduct of Mr. Brodrick, and

the masterly incapacity of the latter

genelman can be shown to the

whole world.

REPORTING RECORD.
"JEFF" CAN'T WHIP HIM.
That is the Opinion of Mr. Sharkey.

Sailor Asks for More Time to Train.

Brannon Reinstated at Latonia—New York Horse Show—Races.

(DIRECT WIRE TO THE TIMES.)
NEW YORK, Nov. 18.—Dr. William F. Norris, professor of ophthalmology in the University of Pennsylvania, and a widely-known occultist, died at his home here today, aged 62 years.

J. L. Keefer.
CHICAGO, Nov. 18.—J. L. Keefer, one of the earliest pioneers of aviation, died here this morning. Keefer erected the first sawmill in Northern California, and the first flour mill in the State.

OAKLAND CROWD HIT THE BOOKS HARD.

FIVE FAVORITES SCORED YESTERDAY ON A SLOW TRACK.

Ranch brings in three winners and finishes in second place with two other mounts—Articulate takes San Pablo Handicap.

(BY THE NEW ASSOCIATED PRESS—P.M.)
SAN FRANCISCO, Nov. 18.—Five favorites scored at Oakland today, and the books were hit hard. Ranch carried off the riding honors by landing three winners and finishing second with two other mounts. Articulate took the San Pablo handicap in impressive style from Flying Torpedo and Brutal. Gusto tried to make a runaway race of the last event, but Beck caught him in the last eighth and won driving. Dick Dwyer, who started the fields and did good work. The weather was fine and the track slow. Results: Five furlongs, purse; Malaspina, 112 (J. Woods); 2 to 2, won; Mintaka, 112 (J. Matthews); 13 to 5, second; the Maniac, 110 (Brodien); 1 to 1, third; time: 1:05½. Tortilla, Robert Morris, 5 to 1, second; Little Michel, Robert Bruce, St. Chester, Peggy Miles and Knockings also ran. Six furlongs, selling: Gibralter, 112 (Ranch); 5 to 1, won; Wyoming, 113 (Ranch); 2 to 1, second; Fine Shot, 108 (J. Matthews); 10 to 1, third; time: 1:15. Tortilla, Tiburon, Censor, Mike Rice, Ben Ledi, Scally Wag, Discipline and Trimmer also ran. Purfurity, course selling: Eyes G., 5 to 1, won; Sol Leichtenstein, 105 (Woods); 7 to 2, second; Silva Cruz, 103 (Ransom); 5 to 1, third; time: 1:12. Dr. Scharr and Pirate Maid also ran. San Pablo handicap, mile and an eighth: Articulate, 112 (Hanson); even, won; Flying Torpedo, 96 (Birkearth); 4 to 1, second; Brutal, 107 (J. Woods); 2 to 2, third; time: 1:56. Sled also ran.

"I want to give all my friends a chance to win back the money they lost to me when I fought Jeffries before. For that reason, I want a little more time to get in proper condition to meet the champion. I do not want to go into the ring with him unless I am perfectly fit, and it will take me about a month to get just right."

"I want to give all my friends a chance to win back the money they lost to me when I fought Jeffries before. For that reason, I want a little more time to get in proper condition to meet the champion. I do not want to go into the ring with him unless I am perfectly fit, and it will take me about a month to get just right."

"I telephoned Jim Kennedy this morning to send on articles or agreements for a fight with Jeff. I don't see any reason why the champion should object to a change of date. I am certain he broke training after beating Rubin, and a few weeks' rest should be very agreeable after the hard work he has done. As soon as articles are ready, I will go to Paso Robles in California and remain there until the fight is over. I will break my training at the Cliff House near San Francisco, where I have always trained when I fought in California."

AFTER MANY YEARS.

BRANNON REINSTATED.
(BY THE NEW ASSOCIATED PRESS—A.M.)

CINCINNATI (O.) Nov. 18.—Willie Brannon, who for nearly a decade has suffered ostracism from the American turf, has been reinstated at Latonia.

The offices which made Brannon an outcast was the support "ringing in" of the noted old horse Tazza under the name of Polk Badet, at Latonia, in which he cleaned up something like \$60,000.

Brannon trained the horse on the outside of Latonia, and nothing is known about him until after he was made. Polk Badet, at 40, to Latonia, was down to 18 to 5. Jockey Keith had the mount, and tried to make a close start, and when he got his head and was driven away in front, Brannon never claimed the purse, but cashed the tickets and walked the horse to a stable in this city, and last night he was hidden behind some bushes, and his baggage can be called to prevent recognition by the officials, and shipped direct to Jersey City. The stall was so hot that he had scarcely reached the stable there when he was hauled out and shipped to Hopkinsville, Tenn.

The horse is dead, and so is the jockey who rode him. Judge Perkins said he thought Brannon had suffered punishment enough, and gave him re-instatement in the nature of a pardon.

"COFFEE COOLER'S" FALL LOSES HIM A FIGHT.
(BY THE NEW ASSOCIATED PRESS—P.M.)
LONDON, Nov. 18.—(By Atlantic Cable) At the National Sporting Club tonight, Jack O'Brien of Philadelphia defeated Frank Craig, the "Harlem coffee man," after seven rounds of a ten-round bout. The Harlem boy was disabled for falling without a blow. Craig made wild rushes, and repeatedly fell without a blow. O'Brien was a strong favorite in the betting, in spite of his condition. He did almost all of the scoring in the farcical and disappointing contest.

"Did McCoy" and McKeever have challenged the winner, and it is probable that a match will be arranged between McKeever and O'Brien.

NEW YORK HORSE SHOW SURPASSES PREDCESSORS.
(BY THE NEW ASSOCIATED PRESS—P.M.)

NEW YORK, Nov. 18.—The New York Horse Show began today at Madison Square Garden. The formal entries number by hundreds those of any previous year, and represent the best type to which the thoroughbred has developed, and the greatest advances in vehicle building, with the latest degrees of fashion as to livery, trim and handling. Perfect weather opened the show.

Vanderbilt drove his own carriage in the class for four-horse teams, not under fourteen and not exceeding fifteen hands. Vanderbilt received only the white ribbon, however, for going to the four entered in memory of Mrs. R. F. Carman of Connecticut; L. L. and driven by her

Amateur Athletic Union.

TOKYO, Nov. 18.—More than 1,000 athletes from the various branches of the Japanese Athletic Union were present for the opening of the Pacific Association, which was organized by L. B. Sharp of the New York Athletic Club. The following officers were elected for the ensuing year: President, E. H. Ligner; Vice-President, Dr. B. M. Hopkinson; Secretary and treasurer, James E. Sul-

ler.

Retires to Meet Bernstein.

FRESNO, Nov. 18.—Aurelia Herrera Bakerfield and Joe Bernstein of Fresno have been matched to ride in the races before the Central California Athletic Club of Fresno. The meeting will take place some time in December.

OBITUARY.

Mrs. Ann Cooper.

JONE, Nov. 18.—Mrs. Ann Cooper, colored, died here today at the age of 90 years. She was a native of New England, born N. J. She was born a slave, but was subsequently freed by the state of that State. She came to California in 1852, and had lived in San

Jones ever since. Her husband died twelve years ago, shortly after they had celebrated their golden-wedding anniversary.

Dr. William F. Norris.

PHILADELPHIA, Nov. 18.—Dr. William F. Norris, professor of ophthalmology in the University of Pennsylvania, and a widely-known occultist, died at his home here today, aged 62 years.

J. L. Keefer.

CHICAGO, Nov. 18.—J. L. Keefer, one of the earliest pioneers of aviation, died here this morning. Keefer erected the first sawmill in Northern California, and the first flour mill in the State.

LOCAL SPORTING RECORD.

SANTA MONICA TEAM WINS BOWLING GAME.

BEATS MELROSE WITH ONLY A TRIFLING EFFORT.

Monarch Defeat Looches at Nine Pins. Prize Fight Possible Here Next Month Between Walcott and Gardner—Baseball This Week and Next.

The crack Santa Monica team had no trouble last night in defeating the Melrose team in a game of ten-pins at the Angeles alleys. All of the players did commonplace bowling, with the exception of Tompkins, who rolled 215 in his second game, and made an average of 169.

The scores were as follows:

SANTA MONICA.

1. 2. 3. Total. Av.
McGee 128 125 122 400 134 1-3
Miller 128 125 122 400 134 1-3
Goldman 125 140 142 418 138 1-3
Howard 125 125 125 375 130 1-3
Tompkins 125 125 125 375 130 1-3
Total pins—216.
High roll—Tompkins, 215.
Team average—169.

MELROSE.

1. 2. 3. Total. Av.
Fitzsimon 125 125 122 372 124 1-3
Ritter 125 125 122 372 124 1-3
Moore 125 125 122 372 124 1-3
Belt 125 125 122 372 124 1-3
Humm 125 125 122 372 124 1-3
Total pins—216.
High roll—Fitzsimon, 180.
Team average—144 1-3.

LOOLOCES.

1. 2. 3. Total. Av.
Drake 125 125 122 372 124 1-3
Simonsen 125 125 122 372 124 1-3
Brand 125 125 122 372 124 1-3
Hall 125 125 122 372 124 1-3
Total pins—216.
High roll—Drake, 180.
Team average—124 1-3.

MONARCHS.

1. 2. 3. Total. Av.
Deming 125 125 122 372 124 1-3
Gordon 125 125 122 372 124 1-3
Dodge 125 125 122 372 124 1-3
Hart 125 125 122 372 124 1-3
Heyer 125 125 122 372 124 1-3
Total pins—216.
High roll—Dodge, 180.
High average—Deming, 124 1-3.

The Angeles team will bowl at the Brunswick's at ten-pins tonight, at the Angeles alleys.

PUGILISM.

WALCOTT MAY FIGHT HERE.

Now that the Jeffries-Ruhlin fight has been decided, something will soon be doing in pugilism here. The big "fight" attracted all the attention of the sports in this vicinity, and nothing could be done until it was settled.

Manager Tom McCarey of the Century Club has returned from San Francisco and brings the news that many people

and friends are here, and many people

will be here between Joe Walcott and George Gardner. Walcott whipped Gardner some months ago, and another go would be watched with interest, as both are good fighters.

If matters can be arranged they may meet next month.

Billiards.

Henry Berry of the Hoffman billiard room has decided to give a three-cushion tournament the first week in January. It will be open to all comers, and a large number of entries is expected.

Ballroom.

Magnate Morley of the Looches returned yesterday from the north and his hired men will be here today. On Thursday they will begin a series with the Senators at Washington Gardens, and next week the Dutch will be here from San Francisco instead of this from the south.

There is almost no part of the country where he cannot go and find friends other than political ones. If he goes on a hunting expedition in the far West, he finds nothing but certain him. If he comes to Farmington, he finds relatives. If he stops at New Haven he falls into a group which includes a Rough Rider or two. When he comes to New York he finds his own people, and after dinner goes to the Century Club and spends an evening, as any member might.

What other President have we had who was at home everywhere? He is especially true of the men in the political way. There is almost no part of the country where he cannot go and find friends other than political ones. If he goes on a hunting expedition in the far West, he finds nothing but certain him. If he comes to Farmington, he finds relatives. If he stops at New Haven he falls into a group which includes a Rough Rider or two. When he comes to New York he finds his own people, and after dinner goes to the Century Club and spends an evening, as any member might.

"Well," replied the head of the firm, "there was one part of it that really excited me."

"And what was that?"

"Your expense bill!"—[Catholic Standard and Times.]

Old Man: Do you think you will be able to support my daughter?

Sutor: I do. It couldn't cost any more than courting her.—[The Smart Set.]

She's a very cautious woman.

Easier to get along with her than with a woman who is a social butterfly.

"But I am told that stories confide to her in secrecy do get out somehow."

"Yes, I know. You see she tells them all to her husband."—[Cleveland Plain Dealer.]

TUESDAY, NOVEMBER 19, 1901.

Los Angeles Daily Times.

OPENING OF
DESERT LAND.New Tract Attracting
Much Attention.Half of it Goes to the
Southern Pacific.Conditions on Which Claims
Can Be Taken Up—Fertile
Spots Limited.

The announcement that the government has decided to open to settlement three sections of land now included in the San Joaquin forest reserve, has sent the news of somewhat exciting speculators and landgrabbers. Many inquiries about the opening of that part of the reserve overlapping the Indio irrigation belt were received at the United States Land Office in this city yesterday.

Truth to tell, the Registrar of the Land Office and his assistants are not in a position to give much information about the land, from personal knowledge or the Registry. All they know is that the land is to be opened to settlement under the Homeless and Desert Land acts, January 21 next. Their knowledge of the characters of the land is limited to hearsay reports, which differ materially as to the number of acres that are probably within the Indio irrigation belt and their value for irrigation purposes.

The three townships to be opened, S. 9 and 10 south, range 3 east, S. S.M., contain in the aggregate, 3,329 acres.

Two sections, S. 10 and 11, S. S.M.,

in the Southern Pacific Railroad Company, and sections 16 and 20 in each township are reserved as school lands.

The acreage subject to entry is reduced to 34,000 acres.

Those familiar with the locality,

probably, not more than one-fourth of the total area, or 8,625 acres of that portion which is subject to entry, in the arid belt, and the soil is said to be a considerable portion of the three townships is mountainous, or consists of sand hills, and is therefore worthless.

But it is conceded that at least seven-tenths of the portions of the strip are just as fertile and desirable in most respects, as the adjacent lands in the Indio basin, which have been brought under high state of cultivation by the large farms to the north, through the development of an abundance of artesian water.

Unproved claims in the Indio section are selling at \$30 to \$50 per acre, and selling at \$30 to \$50 per acre, and held at \$30,000 to \$50,000. Nowhere in California, perhaps, have agricultural land values risen more rapidly in so short a time.

At present as much as 5000 or 10,000 acres of the tract now being opened, approach the adjacent lands in quality, there is likely to be a lively scramble to get located on it. Eight thousand acres will make 500 quarter-sections, each capable of supporting a population of several thousand people.

The more limited the acreage of good land in the territory to be opened, the more valuable it is likely to prove, and the more the competition to get it.

Under the Homestead Act, one person cannot locate more than 160 acres.

For this a fee of \$22 will have to be paid at the time of filing notice of location.

Residence must be established on the land six months from the day of such filing, and five years' continuous residence on the land is necessary before a patent confirming ownership in fee simple will be granted.

The fees for making final proof will amount to \$6 or \$8.

Under the Desert Land Act, 160 acres in addition to 160-acres homestead claim to be taken up, or 320 acres altogether as a desert land claim. For this a payment of 25 cents per acre must be made at the date of filing the notice of claim.

For the next three years at least 25 per acre must be spent in reclaiming work, and 160 acres of the land must be reclaimed and at least one-eighth of it under cultivation at the end of four years, and \$1 per acre more must be paid to the government before title will be given to the locator. A desert claim will thus cost the minimum price of \$25 per acre before it can become private property.

Desert land is subject under the conditions mentioned, to entry, by any citizen of the United States, or by any having given notice of intention to become a citizen.

In order to locate any of the land in question, it will be necessary for the would-be homesteader to file a claim to visit the body of land to be located and file a notice of location with the Register of the United States Land Office in this city at or after 9 o'clock on January 21 next.

The notice must be accompanied by affidavit affirming the applicant's right under the law to entry, and giving a description of the tract sought; to be entered, together with the affirmation that no previous application for it has been made.

It is believed that mineral land may be exempt from settlement under the Homestead or Desert Land acts.

If more than one person attempts to locate on the same quarter section, the one who first succeeds in filing notice in the land office is entitled to the claim.

The morning of January 22 next is likely to present a long line of people in front of the door of the land office on the third floor of the Post Block.

There promises to be quite a lively race for the more desirable locations on the lands about to be opened, and for that reason places at the head of the line are likely to be at a premium.

New York Passengers

Before purchasing their tickets should carefully consider the facilities offered by the Pennsylvania Short Lines.

We other Chicago, St. Louis or Cincinnati quick transportation and superior accommodations. Two days ago we allowed at Washington or Philadelphia on New York tickets. Find out about it by addressing George B. Treadwell, agent Pennsylvania lines, P. O. Box 211, Los Angeles.—Adv.

Removal Notice.

We beg leave to announce the removal of our entire stock of electrical supplies, excepting lamps, batteries, etc., to No. 10 West Third street, where we shall do business as the Machinery and Electrical Company, Incorporated.

The business of No. 10 West North Market street, formerly conducted by us, was operated on the Machinery and Electrical company department. We shall carry our usual line of hardware and other departments, and hope to serve our old customers better than ever before. The Machinery and Electrical Company.

\$10 for a Letter from a Lady.

Two dollars in gold will be awarded to the lady sending us the best written letter.

The grand dame finished snarl with her cheeks and voluptuous bust but heightening her charms. Seizing her plate of pie garnished with the leaves of the fruit, she extended it toward her tormentor, and with all the scorn she

EVENTS IN SOCIETY.

120 YEARS OLD

Mr. Abraham E. Elmer, of 54 Spring street, Utica, N. Y., is without doubt the

OLDEST MAN IN THE WORLD.

He is almost 120 years of age and is in possession of all his faculties. He attributes his old age, strength and vitality to the constant use of Duffy's Pure Malt as his only medicine.

Mr. Elmer has taken no other medicines for 56 years; he says:

DUFFY'S PURE MALT WHISKEY

The Standard of Purity and Excellence

for Nearly Half a Century

HAS PROLONGED HIS LIFE.

How grateful I feel for what your valuable whiskey has done for me. It is my only medicine. My health is still good and I am as strong and vigorous as a man could expect to be at eighty years of age, notwithstanding I am nearly 120 years old and have taken no medicine but Duffy's Pure Malt Whiskey for severals years. I take it in an egg-nog three or four times a day and it stimulates my blood and keeps me well and strong. It is both food and drink to me. My hearing is good, I can walk and dress myself, and I thank God for what I have. Duffy's Pure Malt Whiskey has done for me. It is truly a blessing to old people. I cannot say too much in its praise. I know I would not be alive to-day if it were not for your whiskey. Gratefully yours, ABRAHAM E. ELMER.

Abraham E. Elmer, 120 Years Old.

It gives me pleasure to tell you what your valuable whiskey has done for me. It is my only medicine.

My health is still good and I am

It gives me pleasure to tell you what your valuable whiskey has done for me. It is my only medicine.

My health is still good and I am

as strong and vigorous as a man could expect to be at eighty years of age, notwithstanding I am nearly 120 years old and have taken no medicine but Duffy's Pure Malt Whiskey for severals years. I take it in an egg-nog three or four times a day and it stimulates my blood and keeps me well and strong. It is both food and drink to me. My hearing is good, I can walk and dress myself, and I thank God for what I have. Duffy's Pure Malt Whiskey has done for me. It is truly a blessing to old people. I cannot say too much in its praise. I know I would not be alive to-day if it were not for your whiskey. Gratefully yours, ABRAHAM E. ELMER.

WHITE MEMORIAL AND THE SUPERVISORS.

It is expected that the Board of Supervisors will decide today whether or not to grant the request of the donors of the White memorial fund and the friends of the people for the location of the statue of the late Senator on Courthouse grounds. The original question came from the Executive Committee in charge of the memorial, but now the appeal to the Supervisors is earnestly made by the body of the citizens of Los Angeles.

This is the request to be passed on by the Supervisors this afternoon. The united petition is one of the most remarkable ever presented to a board of supervisors, and it is safe to say that no previous board has ever refused a petition of such strength and importance relating to any matter.

It is well-nigh impossible to believe that the executive officers of Los Angeles county can deny such an appeal, signed by more than three thousand representative men. The petition comes from all parts of each congressional district and are submitted by the most active and influential men of the respective cities and towns.

When the matter came before the Supervisors last week they said they would like to have an expression of sentiment from the people. They have it. It is an emphatic expression, nothing could be more emphatic, unless it were an earthquake. Indeed, it may well be called a tidal wave of sentiment which has rolled all over the country, gathering force as it went, and bursting against the doors and hearts of the Supervisors today. How do they resist it? How can they override it? How can they turn a deaf ear to the mandate of the people?

There could not be a more representative or unanimous declaration of the wishes of the citizens of Los Angeles.

The Governor has signed it; the lawyers of cities have signed it; the bankers have nearly all signed it; the lawyers have put their names to it; the merchants are almost a unit in it; the wage earners have endorsed it; the ranchers and the fishermen and all the busy folk, up and down the country and around the edges, have signed their signatures on the roll of honor. In one town with 200 voters he petition received 200 signatures, another hamlet every citizen has signed. Similar unanimity has prevailed in other sections. Had there been time and a systematic canvass, it would have been possible to enlist nearly the whole army of the voters of the county. As it is, only 1,000 signatures have been heard of, as against this legion of 3,100 signatures. If the Supervisors really desired an expression of sentiment from their constituents, what more have they to ask than this vote of 3,100 to 168?

Here we have had a practical trial of the Swiss method of "referendum," which we have heard so much, and the verdict is as clear as a bell—a solid poll of bells chiming in unison. The Supervisors now disregard this expression of the wishes of the people who elected them, what apology can they offer? The question before them is not, whether they will accede to the request of the donors of a noble work of art perpetuating the memory of California's greatest son, but whether they will set themselves up against the will of the people. The time for the consideration of other issues has come. If there have been any, they passed. The only thing for the Supervisors to do is to ask themselves now is this: "Shall we, the servants of the people, do what the people bid?"

Divesting themselves of all personal prejudice, turning a deaf ear to a small coterie of noisy propagandists, critics and eccentricities, dismissing all relevant arguments, refusing to be intimidated by any vicious pressure, opening their eyes to the real state of affairs, paying due deference to the wisdom of three thousand of the most estimable men in the country and realizing that their petition voices the desire of a tremendous majority of those not heard from—under these conditions and with this enlightenment, the Board of Supervisors will find it very difficult to satisfy their consciences or their sense of the fitness of things by any other action than grasping this imposing and loud-speaking petition of the people—the

dangerous measure. Among other things, he attempts to show that the money received by the United States Government under the Newlands bill, from the sale of government lands, not being sufficient in any one State to complete important irrigation work, would probably be "lumped," so that the receipts from sales of land in California, Arizona, Utah and other Western States and Territories might be devoted to the construction of a reservoir in Wyoming, or vice versa.

Here in Los Angeles the Herald has taken up another line of opposition to the national irrigation movement. It has discovered that it would be dangerous to the movement for us to ask of Congress more than the amounts received for sales of government lands, as provided in the Newlands bill, amounting to about \$3,000,000 per annum in all the States and Territories. Otherwise, says the Herald, the intense feeling in the East against national irrigation—existing mainly in the imagination of the Herald—will prevent us from getting anything at all.

Again, in Arizona, the Phoenix Republican, in a two-column article on the Tonto reservoir, which bears the name of having been inspired by Gov. Murphy, who represents the State cession idea in the Southwest, full of covert sneers at the national irrigation movement, and at those who have been laboring so diligently for many years in its behalf, to whom it refers as "a few shrewd men who are working the thing for all it is worth."

There is no probability that Congress would sanction such a step as that suggested by W. H. Mills. It would naturally arouse a storm of indignation protest from all the States and Territories affected, excepting possibly the one which happened to become the first beneficiary. Before the Newlands bill becomes a law there will, undoubtedly, be inserted a proviso that the money received from sales of public lands shall be distributed pro rata among the States and Territories in which the lands are located. Here, however, if we regard the Newlands bill as all-sufficient, we find ourselves upon the two horns of a dilemma. Should no further appropriation be made by Congress, the money received from such sales would be inadequate to accomplish any practical irrigation work in most of the States and Territories within a generation, while, on the other hand, should the receipts of the money received from the sale of public lands be distributed pro rata among the States and Territories in which the lands are located. Here, however, if we regard the Newlands bill as all-sufficient, we find ourselves upon the two horns of a dilemma. Should no further appropriation be made by Congress, the money received from such sales would be inadequate to accomplish any practical irrigation work in most of the States and Territories within a generation, while, on the other hand, should the receipts of the money received from the sale of public lands be distributed pro rata among the States and Territories in which the lands are located. Here, however, if we regard the Newlands bill as all-sufficient, we find ourselves upon the two horns of a dilemma. BOYCOTT FOR THE CHUTES.

jealousy of Foresters' Band the Cause.

Union Harmony Goes Out at the Door.

Jess Glenn Gets a Musical Shock and Plays the Part of "A Flat."

Harmony has been tossed out of the band and discord is rampant among the local musicians.

The trouble is due to the pernicious activity of the leaders of the Musicians' Union, and they have caused a secret boycott to be inaugurated against the Chutes.

There are two musical organizations played at the Chutes. The regular orchestra of seven musicians is composed exclusively of union musicians.

The Foresters' Military Band of forty-four pieces, however, is not composed of members of the union, and the fact gave the union leaders opportunity to breed ill-feeling and cause trouble.

Without any effort being made to recruit the military band, the union has caused letters to be sent to the various other labor organizations; requesting the members to refrain from patronizing the Chutes. This action was taken secretly last week, and no one outside of the unions seems to know about it.

Without any effort being made to recruit the military band, the union has caused letters to be sent to the various other labor organizations; requesting the members to refrain from patronizing the Chutes. This action was taken secretly last week, and no one outside of the unions seems to know about it.

Jess Glenn, more than any other one man, is the cause of the boycott.

The latter association was formed by members of the Independent Union of Foresters. It was originally formed as a social adjunct of the organization and simple its name, but it is now known that it received several professional offers.

The band is official musical representative of the Foresters and has been induced by the local courts.

It is the band that has accepted professional engagements. It has augmented by professional musicians some of whom have been excluded from the Musicians' Union.

With these few exceptions most of the men who are all workingmen, are members of various trades unions, although not members of the Musicians' Union. The band is only employed at the Chutes on occasions of a special attraction, for a series of concerts.

On Sunday M. C. Glenn, the president of the Musicians' Union, took himself to the amusement place, and watched the operations of the Foresters' band and union band. It is said that he has not recovered from the shock. He could bring himself to believe that there was such real music in a non-union concert.

Yesterday the members of the Foresters' band were made acquainted with the fact that they have been placed in the ban of the union, and the band is to be made accountable with a similar fact, through medium of a boycott.

There are a lot of soreheads in the band and they have determined to make it a unpopular place for Chutes people that they will be allowed to let the Foresters out," said member of the latter yesterday.

"We are afraid to come out in the sun and fight, after hearing that our band is divided. The incompetent control of it at present. President Glenn had no business at the Chutes while there is a non-union band there. It was his duty to see every man in the orchestra, and he didn't do so simply because he was afraid.

The rules of the Federation of Labor and the American Federation of Labor, with which it is affiliated, direct that no band should be used. As he and his crowd have not served to fight in the open, they have started the secret boycott."

WOMEN'S CLUBS.

The semi-monthly meeting of the Los Angeles' Servicultural Club took place yesterday afternoon at the Chamber of Commerce. Mrs. C. M. Bragg was a member of the executive committee in place of Mrs. Keever, who is to serve. News of silk culture and related countries was discussed. Among the items of special interest was the statement that even the comparatively unfavorable cities of Connecticut, Mrs. Charles Fenwick of the Windham Silk Company, had found little trouble in raising silk worms. Miss Sorenson stated that a New Yorker is looking for looting in Southern California for the raising of worms. It resulted by vote to make the following appeal to the citizens of Los Angeles:

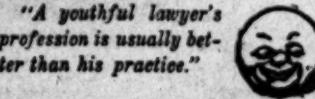

The Woman's Servicultural Club of Southern California, appeal to the rich and liberal-minded citizens of Los Angeles to aid by every means in the power of propagation of the industry in Southern California in order to be protected by State Legislature, mainly of the silk school, for the benefit of the public school children and the unemployed throughout the state, not only as a means of profit, but also in the interest of the welfare of our beloved city. We would further, the planting of the varieties of mulberry trees in the public schoolhouses of the city and on the boulevards and city streets. We will further demand donations of small tracts of land for buildings for the establishment of experimental silk-culture in or near the city, for the benefit of the unemployed. Address Woman's Servicultural Club, care of E. P. Keeney, president of the Club.

It was stated that, according to the British, the mulberry tree has no parasites and is therefore ideal for planting.

Angela Ebell.

A tourist section of the Ebell met yesterday afternoon. Miss Marie Marie read a paper on the great work, with a review of the theories and principles regarding the building to its builder, Mrs. H. E. Stoddard, read a paper on Cleopatra, and Sarah Louise Cogswell spoke on the matter. Mrs. C. P. Bartlett, of the section, read extracts from Stoddard's lecture on Egypt. Bartlett and Miss Jessie Lawrence sang two duets: "Parting," by

"A youthful lawyer's profession is usually better than his practice."

Black Suits.

We put into practice everything that we profess. We claim to have the best stock of black suits in Los Angeles.

Let us show you. Of rough or smooth cloths, broad shoulder effects, single or double-breasted sacks with single breasted, high button vest; also the 3-button cutaway frocks for dressy occasions, made by Brokaw, or L. Adier Bros. \$10.00 to \$25.00.

Have you seen the nobby double-breasted black Thibet sack coat and vest we're selling at \$15.00?

Neidlinger, and "Friendship," by Mar-

Mrs. Strickland Clark conducted her class in parliamentary drill, a large number of club members being in attendance. Mrs. Clark lectured on the motion of the day, and included the head "diplomatic subsidies," and "re-susceptive subsidies;" the section also drilling in these motions.

MENDICANTS DESERT ACCUSTOMED HAUNTS.

ONLY A FEW OF THEM NOW SEEN ON STREETS.

Los Angeles Police Officers Have Strict Orders to Keep the Beggars Moving—City No Longer "Easy" for the Seeker of Alms.

The street beggars of Los Angeles are on the run, and if the present activity of the police is continued they no longer will cumber the business streets to the annoyance of merchants and the discomfort of tourists and citizens. Since the crusade of a few days ago, when the streets were cleared effectually of the mendicants, only a few have been so bold as to appear in their accustomed haunts and for the first time in months pedestrians have traversed the streets without having hands held out to them in supplication for alms, which in almost every case were demanded. A few of the fraternity, especially tramps who have lost limbs in railway accidents, have planted themselves in the center of the pavements in the past day or two, and have impeded inconsistently for nickels and dimes. They have been somewhat shy in their operations, however, as the policemen have kept them moving from one spot to another, much to the detriment of the questionable customers.

The movement on Spring street and Broadway has noticed the improvement in the conditions, and are gratified over the suppression of a practice which, it is said, has been permitted to run too long.

In response to a communication from the Merchants' and Manufacturers' Association, Chief Elton yesterday repeated his orders of a few days ago to the beggars to get in line with the mendicants, but he thinks that make it uncomfortable for them that their numbers will not increase, and that most of those now here will seek other pastures.

The Old Beau was speaking:

"Never ask for a kiss, my boy," he said, "until you have taken it." —(Puck.)

Bleeding Lungs!

Cured by Dr. Bull's Cough Syrup, the old reliable cure.

W. H. Borden, New York City, writes:

"Please excuse my silence,

as I have not had time to write

more recently, as I have

been very busy with my work.

Starting to take Dr.

the new Cough Syrup, and

my cough has entirely

ceased. I am very well now.

My cough was entirely

alright again.

A slight cough is dangerous if left alone.

Cure it at once and prevent serious complications by using Dr. Bull's Cough Syrup. It has cured countless over fifty years. It is quiet, safe and harmless.

ARMED CONSTITUTIONS

Do not accept some cheap imitation, that contains harmful drugs. Insist on getting "Dr. Bull's." See that the "Bull's Head" is on the package.

THE PUBLIC SERVICE—IN THE OFFICES AND COURTS.

SUMMARY OF THE DAY.

Only one bid was presented for the water bonds yesterday, and the only cover part of the issue. The Council will try and dispose of the issue by private sale.

Because of faulty publication, the Council will not receive bids for a telephone franchise until January 6, 1902.

An ordinance taxing gas and electrical companies, was introduced in the Council yesterday.

The Board of Public Works will investigate the construction of a bridge at the junction of Lake Shore and Sunset boulevards, which has caused considerable agitation in the neighborhood.

Mayor Snyder leaves today to attend the Chinese Exclusion Convention in San Francisco.

The Supervisors will decide today whether or not the White monument shall grace the spacious grounds of the Courthouse.

The Kern Power Company incorporated yesterday with a capital stock of \$5,000,000. It is a Huntington-Hellman enterprise.

Lewis L. Price of Alhambra was arraigned in the Township Court yesterday for the alleged murder of Walter Boydson at Old Mission, October 1.

Jim Gray, the labor agitator, was fined \$10 in the Police Court yesterday for disturbing the peace.

George Thayer, a striking messenger boy, who hit another boy who would not strike, was fined \$5 by Justice Morgan.

AT THE CITY HALL.

ONE CONDITIONED BID FOR THE WATER BONDS.

ADAMS-PHILLIPS COMPANY WILL TAKE ONE-FOURTH.

Result Occasions Little Surprise and Council Determines to Try and Sell the Issue at Private Sale—James H. Adams Tells Why Bonds Have not Sold.

No acceptable bids for the \$2,000,000 issue of water bonds were presented to the Council yesterday. The Adams-Phillips Company made a conditional proposal for the last one-fourth of the bonds bidding par and accrued interest, but there were no bids to cover the other three-fourths of the issue.

Several brokers, among them S. A. Keen of Chicago have contemplated with the City Clerk the possibility of disposing of the bonds on a commission basis, but the Council is not empowered to take less than par and accrued interest for the issue. If the bonds were sold at face value and a bonus paid a broker, the city would obtain less for them than is contemplated by the law regulating bond sales.

After the bid of the Adams-Phillips Company was read at the morning session, President Powers advised the Attorney, T. L. Lee, City Attorney Mathews, President, Powers of the Council, Allen and Blanchard, and George I. Cochran, Esq., after considerable discussion of the points involved, that the payment of a bonus of \$40,000 to the broker for the disposal of the bonds would be illegal, and at 2:30 o'clock the committee reported back to the Council.

On motion of Mr. Pierce the bid of the Adams-Phillips Company was then referred to the Finance Committee, together with the proposition of disposition of the remainder, or all of the bonds. The committee is to report its findings as soon as possible to the Council for confirmation.

That, in brief, is the situation. Twice the Council has been unable to find a purchaser on the open market; twice the hopes of the Council have been raised to a high pitch, only to be thrown violently to the ground. Many believe that the bonds will not sell in the present condition of the market. In years there has been no time when money was so much in demand as at the present time. Immense consolidations of capital in the East, the launching of new great enterprises, coupled with the movement of crops to the seaboard for exportation, have sent the price of money so high that investors are not tempted by securities that bear only 3½ per cent interest.

The bid of the Adams-Phillips Company was for the longest serial bonds. These are regarded as the most valuable. The proposal is couched in the following language:

"We bid for the last quarter, or \$500,000 worth, of the 3½ per cent water bonds of the city of Los Angeles, par and accrued interest. This bid is conditioned upon the bonds being accompanied by the usual and indispensable affidavit of New York City, that the bonds are legal and binding obligations on the city; no injunction proceedings be issued against the city or delivery of the bonds prior to their delivery, that within ten days from this date you will sell the whole of the remaining bonds to us at least than par and accrued interest."

The bid shall, under the provisions stated, be binding upon us for ten days from date, at which time our certified check enclosed herewith, payable to the Mayor, will be returned to us, if our bid is not accepted by the whole of the bonds are not sold, or if a favorable opinion of Dillon & Hubbard, attorneys of New York City, that the bonds are legal and binding obligations on the city; no injunction proceedings be issued against the city or delivery of the bonds prior to their delivery, that within ten days from this date you will sell the whole of the remaining bonds to us at least than par and accrued interest."

The proposal is signed by James H. Adams as president of the Adams-Phillips Company and is accompanied by a certified check for \$500 drawn on the Farmers' and Merchants' Bank.

A communication was received by the City Clerk from S. A. Keen to the following effect:

"For the \$2,000,000, 3½ per cent serial bonds to be sold on the 1st inst. I make the following proposition:

"I will agree to sell the bonds at par, viz., \$2,000,000, the city agreeing to furnish me the opinion of Dillon & Hubbard, attorneys of New York, applying the legality of the bonds, and also a transcript of the legal papers authorizing the bonds, and to pay me one-half of 1 per cent, as commission to cover the expense of selling the issue. The bonds must be sold, and the sum deposited before this proposition goes into effect."

There are so many complications in

the way of accepting either of the propositions that it is very doubtful if the Council will consider them further. It is understood that the Finance Committee will try to dispose of the bonds at private sale during the next few weeks. Several propositions looking to a private sale have been received from eastern cities. One correspondent in Duluth has asked to be informed of the result of the advertisement with the intention, it is said, of making a private offer for the issue.

As an ordinance taxing gas and electrical companies, was introduced in the Council yesterday.

The Board of Public Works will investigate the construction of a bridge at the junction of Lake Shore and Sunset boulevards, which has caused considerable agitation in the neighborhood.

Mayor Snyder leaves today to attend the Chinese Exclusion Convention in San Francisco.

The Supervisors will decide today whether or not the White monument shall grace the spacious grounds of the Courthouse.

The Kern Power Company incorporated yesterday with a capital stock of \$5,000,000. It is a Huntington-Hellman enterprise.

Lewis L. Price of Alhambra was arraigned in the Township Court yesterday for the alleged murder of Walter Boydson at Old Mission, October 1.

Jim Gray, the labor agitator, was fined \$10 in the Police Court yesterday for disturbing the peace.

George Thayer, a striking messenger boy, who hit another boy who would not strike, was fined \$5 by Justice Morgan.

No reply had been received from Attorney T. L. Lee, City Attorney, in application of Waldron to bring a suit in quo warranto. However, for some reason, the City Attorney and members of the Council are very confident that the petition of Waldron will be denied and the word to effect will be rendered in a few days.

Both the City Attorney and Mr. Pierce are confident that the bonds will be sold at private sale. A close survey of New York financial papers shows that municipal bonds have been strong on the market for the last few days, and it is believed by Mr. Pierce that the bonds will yet sell at a premium.

Local bond buyers are very timid," said Mr. Pierce yesterday. "They hate to enter a public competition for municipal securities because it is not to the credit of their house to lose an issue for which a bid is made. I am still confident that we will sell the bonds as they are now stand for a premium."

White and bond buyers are very timid," said Mr. Pierce yesterday. "They hate to enter a public competition for municipal securities because it is not to the credit of their house to lose an issue for which a bid is made. I am still confident that we will sell the bonds as they are now stand for a premium."

Orange, Santa Barbara, Ventura and San Luis Obispo Counties.

"FORTY-NINER" DEAD IN ORANGE COUNTY.

CAPT. WEST HAD LIVED THERE TWENTY-NINE YEARS.

Harry Dilges, Would-be Murderer, Sentenced to San Quentin for Five Years. Plenty of Water Found West of Santa Ana.

SANTA ANA, Nov. 18.—[From The Times' Resident Correspondent.] Harry Dilges, who was found guilty of assault with intent to murder Night Watchmen Murray and Baker, was today sentenced to five years in the penitentiary at San Quentin by Judge Ballard. Dilges was given a severe lecture by the court before sentence was pronounced. The prisoner was reminded that officers of the law are not employed to be targets for the bullets of revengeful desperadoes. A deputy sheriff will leave for the north tomorrow with Dilges.

WATER ENOUGH FOR ALL

From the development that has thus far been made in the country west of Santa Ana, it has been demonstrated that a large body of water underlies that section at a depth easily accessible to the thrifty farmer. During the past few months there have been wells put down in the vicinity of Gardena, and even west of that town, where there has heretofore been a lack of moisture during the summer, and in every instance abundant water has been found at from 250 to 350 feet. This promises that there is a great era of development ahead for that section.

At the meeting of the Ministerial Association this morning Rev. J. H. Cooper gave an interesting talk on the "Status of the Saloon Question in Santa Ana and Orange County."

Walter Nassau of Orange was arrested here today for disturbing the peace. He was drunk and quarreled, and wanted to exterminate the whole "foorce."

A. Y. Wright and George Peabody left today for Lower California. They took a stock of mining apparatus.

Fred Sears won a foot race yesterday at Capistrano against Felid Sepulveda.

convey the water to the different sections of the district, and all the work will be under one management, thus minimizing the expense of the system. Work has already been started on one or more of these districts. When water is on thousands of acres of this land is of great value for sugar-beet culture.

CAPT. JOHN WEST DEAD.

Capt. John West, a "forty-niner," and a pioneer of Santa Ana Valley, died at his home in this city early this morning. Capt. West came to California in 1850 from New York City. He had lived in Santa Clara county for twenty-two years. Deceased was 82 years of age, and leaves a large family, two married daughters being residents of San Francisco, and a son in Oakland. The remains will be shipped to Santa Clara for interment.

SANTA ANA BREVITIES.

The game of baseball yesterday between the Angels and the local club resulted in a tie, 15 to 15. The game between Santa Ana and Oildins announced.

At the meeting of the Ministerial Association this morning Rev. J. H. Cooper gave an interesting talk on the "Status of the Saloon Question in Santa Ana and Orange County."

Walter Nassau of Orange was arrested here today for disturbing the peace. He was drunk and quarreled, and wanted to exterminate the whole "foorce."

A. Y. Wright and George Peabody left today for Lower California. They took a stock of mining apparatus.

Fred Sears won a foot race yesterday at Capistrano against Felid Sepulveda.

FULLERTON.

IRRIGATION IMPROVEMENT.

FULLERTON, Nov. 18.—[From The Times' Resident Correspondent.] The extensive improvements on the main irrigation canal in Horseshoe Bend are well under way, and a large force of men and a special construction train will rush the work to completion before the rains set in. When the tunnel, cut and fill are completed, the main irrigation canals will have a capacity of 1,000 cubic feet per second, as it is the intention of the company to soon begin development at the head.

FULLERTON BREVITIES.

Mr. Latthrop and friends, who have purchased 1100 acres of land at Imperial, left for that section today with money and supplies to make extensive improvements.

W. F. Botsford, president of the Cal-

fornia Bank of Los Angeles, was here yesterday looking after his Placentia orange and walnut grove.

C. H. Smith, who has been laid up several weeks with rheumatism, is spending a week at Murietta Hot Springs for the benefit of his health.

John Chapman, who has just returned from a \$10,000 residence. He has commenced building a large carriage house and a cottage for his employees.

J. Forbes, a prominent official of Cincinatti, visited his brother, James Forbes, of Placentia.

Work has been resumed on the Fullerton-Placentia road and bicycle path. Thum Bros., millionaires, fly-paper manufacturers, are engaged in experiments getting up an invention in the way of a tree sprayer, to be used on their Fullerton walnut groves.

Robert Mears has gone to Ohio on a business and pleasure trip.

SANTA BARBARA.

NOTES AND PERSONALS.

SANTA BARBARA, Nov. 18.—[From The Times' Resident Correspondent.] Ellwood Cooper of the Cooper olive ranch, reports that his crop of olives for this year will be remarkably good. On this ranch are 12,500 trees, and it is thought the year's output will be 3000 boxes, or 26,000 bottles. The olives now harvested will be converted into oil at Cooper's factory. On his ranch, it will then be stored and the first shipments to market will be next April.

The pampas-plume business has been languishing for several years, there is somewhat of a revival of this industry this year here. The exact number of cases that will be shipped cannot at present be estimated, but large orders have been made, exceeding 100 orders for last year by about 100.

General manager of the San Miguel Mission has been commenced. The money was raised by subscription among the people of the county.

John Cullen was arrested for a violation of the game laws today, and paid a fine of \$100. His defense was that he paid for this offense in this county within two weeks. The Game Protective Association, recently organized, is determined to bring offenders to justice.

The machinery of the Nacimiento Oil Company is now at work on the Nacimiento River in this country, being removed to Newhall, where the company will continue operations.

The Southern Pacific is making extensive improvements on the line of the San Luis Obispo depot has been enlarged to accommodate the corps of train dispatchers who will be stationed here in December, when the new engine house in this city will be completed next week. A new depot is to be built at Paso Robles.

Albert Clausen, a pupil in the Paso Robles High School, broke his collar bone in a football game yesterday.

The Mission has just been presented

with a handsome new carpet for the floor in front of the high altar, by the immediate neighbors of the Mission.

The head of a large black bear was displayed here. Bruin was killed by George Sherman, in the northern part of the State.

The Hotel of this city was the recipient of a check for \$2000 this morning from Mr. Rees of Indiana. Rees spent several months here some time ago. Being in poor health, he emigrated to Indiana, summer of 1890. On turning to Indiana, Rees died, bequeathing \$3000 to Haynes. The gift was a great surprise.

Mr. and Mrs. William H. Haist of Los Angeles, were recently married, spending their honeymoon in Santa Barbara, left for home this morning.

SANTA PAULA.

WEEKLY BURGLARY.

SANTA PAULA, Nov. 18.—[From The Times' Resident Correspondent.] The Times' Resident Correspondent.] The work of restoring the San Miguel Mission has been commenced. The money was raised by subscription among the people of the county.

John Cullen was arrested for a violation of the game laws today, and paid a fine of \$100. His defense was that he paid for this offense in this county within two weeks. The Game Protective Association, recently organized, is determined to bring offenders to justice.

The machinery of the Nacimiento Oil Company is now at work on the Nacimiento River in this country, being removed to Newhall, where the company will continue operations.

A new depot is to be built at Paso Robles.

Albert Clausen, a pupil in the Paso Robles High School, broke his collar bone in a football game yesterday.

The Mission has just been presented

casing is used through which the oil will run from rock to cars.

The loading dock accommodates only three cars, but will be made longer when necessary. Oil will be transferred from wells of several other companies over this line in a few months.

With the completion of the Maine State Coal Co. plant, when it is first rushed forth, the drillers thought they had only tapped an ordinary petroleum bed—they knew they had oil—but when it began to run off and all prairie dog holes with candles did they find it to be a good fortune.

This oil is the purest oil ever spewed from a well. The source of this oil was at first a great mystery, until an old Indian Medicine man from the San Joaquin told of a history handed down in his tribe of thousands of millions of years ago, when this country was all the land of a great sea. Manitou caused a bad man named John to be swallowed by a great whale, and when he was belched up, he was a veteran smoker, was so permeated with nicotine that he acted as an up, in which convolution the whale exhaled, and the oil carbon in the product.

By the new process, Coalings will be used, the water being dispensed with.

MAKES BETTER GAS.

The Fresno Gas and Electric Company has decided to revolutionize its system of making illuminating gas. Under the existing method, gas is manufactured, by what is known as the water process, which consists in passing oil and water vapor over heated coke, the water furnishing the hydrogen and the oil the carbon in the product.

By the new process, Coalings will be used, the water being dispensed with.

HAVING BEEN FOUND

It has been found by experimenting that Coalings oil, even of the common kind, can be economically converted into illuminating gas much more cheaply than at present.

FIRING UP IN MIDWAY.

The Midway field is now swept by a wave of activity like that which struck its sister field, the Sunset district, on the completion of the Sunset railway, and there is more work done there than in several months.

From word just received from the field, it is true that the winter will witness many new developments, such as the opening of the new highway, the construction of the new bridge, the opening of the new tunnel, the new station, etc.

Several sales of beans at Carpinteria were reported during the past week at \$4.25.

The naval militia held the second drill for this season at La Mesa yesterday forenoon. Excellent target work was displayed. The honors were carried off by Deputy Sheriff John Arkley, who scored 22 out of a total of 25. Wm. Thompson made four bullseyes.

An interesting feature of the day was a skirmish drill with blank cartridges. Lunch was served in Dibble's Cafeteria at noon to the members of the reserve and invited guests.

THE CITY IN BRIEF.

BURBANK—The Toy Maker, ORPHEUM—Vaudeville.

NEWS AND BUSINESS.

Bankrupt Machinist.

Judson H. Coe has filed a petition in bankruptcy, stating his debts at \$704.55, and his assets at \$45. He is a machinist at San Bernardino.

Poor Old Dufy.

"Old Dufy," a case-hardened old timer, who uses dope, has been arrested again for petty larceny. This time he is charged with taking a pack of shingles and some laths.

Rapidly Recovering.

The two Mexicans who were run over by Southern Pacific trains at San Gabriel Sunday afternoon and brought to the County Hospital, where one of them had his leg amputated, are both recovering.

Likes Straight Yanks.

"Where's Fig street?" asked an aged stranger of the conductor. After much figuring his inquiry was located on Figueroa street, and he never said anything about "Mexican streets with Dago names."

Medical Society.

The semi-annual meeting of the Southern California Medical Society will occur in Los Angeles December 4 and 5. The place of meeting has not been decided upon, but heretofore the Westminster Hotel has been the location.

Plowed Open His Foot.

H. Washington, an employee of the California Implement Company, accidentally ran into a pile of plowshares at the plant of that company yesterday. The sharp blades cut open his shoe, and entered his foot, causing a painful wound.

Death from Natural Causes.

The Coroner held an inquest yesterday on the remains of Mrs. Mary A. Presman, who dropped dead on Third street near Central avenue early Sunday morning. The verdict was that death resulted from natural causes. The deceased had long been afflicted with heart disease.

Mashed His Hand.

David Davidson, a teamster in the employ of the Pioneer Truck Company, was painfully injured yesterday by landing lumber from a freight car. While handling a heavy board he slipped and the board fell, catching his left hand between it and the door of the car. All the flesh on his fingers was badly mashed and lacerated.

Horrid Suggestion.

The mystery as to the source of the water supply for Westlake was satisfied yesterday by two little New Yorkers. One said: "It rained all that in the winter," but the other dissented, and insisted that "Papa says it never rains out here," and then said in a whisper: "I know where they get it—it is where they empty the sewers."

Westlake Wonder.

"Our mammal is that the Pacific Ocean has cried a small boy from Iowa, as the street car came in sight of Westlake. To eastern tourists who come here in the winter there are sights in Westlake which are not to be found in any body of water to the lake. This lovely green spot, with its lake shore bordered with tropical foliage in midwinter, is, indeed, a source of unending delight."

Diving Tuba.

John L. Watson of this city has knocked the bottom out of the complicated diving apparatus used by divers in the past. He has invented a short-iron tube, which is sealed at the bottom and furnished with windows and rubber sleeves. He proposes to drop a man to the bottom, at a depth not greater than eighty feet, where he can stand in the tube, look out the windows, and work by means of the rubber sleeves.

Called Out.

"The Ideal Layman" was the subject of A. J. Wallace before the Methodist Ministerial Association yesterday. Mr. Wallace thinks laymen are "called" as well as ministers, and that ministers sometimes receive a second call, out of the ministry, which they fail to obey. The point is given to Mr. Wallace's contention by the fact that he was once a minister, but heard the "second call," and became a layman.

Grau Safe Opened.

The sale of tickets for the return engagement of the Grau Opera Company opened with a rush at the Union Pacific ticket office yesterday, and the showing is for a great and fashionable audience. Dr. W. C. Tracy, Dr. Le Moyne Wills, Dr. Barlow, Brownberger School, L. J. Christopher, Dr. Bryant, E. H. Greenendyke, Virginia Metcalfe, O. W. Childs, Bartlett Bros., and many others.

Official Visit.

Senator Bard and Congressman McLaughlin will pay an official visit to the Pacific branch Soldiers' Home, leaving the electric railway at 1:30 p.m. today. They will be accompanied by Maj. Bonsell, local manager of the Soldiers' Home, and Gen. Sherman, president of the road, the trip being made in the new private car Mermaid. A review of veterans will take place about 3:45 p.m.

Parity Series.

Mrs. Mary E. Teats began her series of meetings under the auspices of the W.C.T.U. in the Central Methodist Church, Fifteenth street, yesterday afternoon. Her subject was "Progress of the Parity Movement." Last night she appeared before another meeting of the church, giving her experiences in prison and rescue work. Tonight Prof. Foshay will address the meeting on "The Ethical Phase of School Life."

Builders Will Build.

The semi-annual meeting of the Los Angeles Builders' Exchange was held yesterday afternoon in the office of the First National Title Block. Routine business was discussed, and the treasurer reported a balance on hand of about \$4000. While no definite action was taken at the meeting, it is the intention of the exchange to erect a building. The association is in a prosperous condition, and hopes soon to have a home of its own.

Eagles Smoker.

Los Angeles Aerie, No. 102, of the fraternal Order of Eagles, pleasantly entertained its members and friends last night at Lincoln Hall with a smoker, it being the first social given this year by the order. About 400 were present. John Brink, W. T. Whittier, Jr., in the lodge code provided as chief吸烟师 and directed masters. Speeches were made by various members and guests; music was furnished by an orchestra, and refreshments were served.

Several Small Fires.

The fire department responded to three alarms yesterday, none of which were caused by serious fires. The first was at 10:30 a.m. for a slight blaze at No. 470 West Seventh street, at which there was no loss. At 4:30 p.m. an alarm was sent in from box 30 at Fifth and Wilshire. A gasoline fire exploded in the residence of Mrs. Lodge, No. 244 Winston street, and set fire to the kitchen, causing about \$300 in damage. The flames were extinguished with a chemical engine. At 8 o'clock last night an alarm was sounded from

box 42, at Sixth and Olive streets. A window curtain in the residence of Mrs. Tilly Chandler, No. 1156 South Olive street, was blown against a lighted lamp and ignited. The furniture in the room was damaged to the amount of about \$50.

BREVITIES.

Send donations of cast-off clothing, furniture or food supplies to the Good Samaritan department of the Bethel Home Institutional Church. Vignes and Ducommun street, or telephone John 23, and wagon will come. Once hours during sun months 8 to 12 daily.

All persons should know how to take care of their own health. Henry F. Britton, M.D., nerve specialist.

Wednesday, 2 p.m., at Caledonia Hall, 129½ South Spring. Admittance free.

Specimens. Fine cabinet photos reduced, \$1. 25. Sunbeam, 236 S. Main.

Dr. Schaffner, physician, 146 S. Spring.

There are undelivered telegrams at the Western Union telegraph office for Mrs. W. B. Thompson, San Fargo, A. T. Torre and Mateo Rustan.

MARRIAGE LICENSES.

The following marriage licenses were issued yesterday from the office of the County Clerk:

Walter C. Austin, aged 24, a native of Connecticut, and Mabel K. Kunzman, aged 15, a native of Ohio; both residents of Pasadena.

Carrie Marsteller, aged 22, a native of California, and Anastacia Cordova, aged 20, a native of California; both residents of Castaic.

Michael Parra, aged 22, a native of California, and Emma Santa Cruz, aged 19, a native of Arizona; both residents of Los Angeles.

John K. Turner, aged 22, a native of Oregon, and Clara E. Tyler, aged 19, a native of California; both residents of Los Angeles.

Frank Eugene Carroll, aged 22, a native of West Virginia, and Lotta L. Pearson, aged 25, a native of Louisiana; both residents of Los Angeles.

James F. Hunnicutt, aged 34, a native of Iowa and Elsie May Williams, aged 20, a native of Indiana; both residents of Los Angeles.

Ashley E. Knapp, aged 44, a native of Canada, and Jessie Tibbets, aged 45, a native of Indiana; both residents of Los Angeles.

Bernard Banks, aged 20, a native of Illinois, and Kate Sidney Porter, aged 21, a native of Pennsylvania; both residents of Los Angeles.

August F. Schneider, aged 30, a native of Louisiana, and Rosa Hoffman, aged 26, a native of Minnesota; both residents of Los Angeles.

BIRTH RECORD.

FULLERTON.—In Los Angeles, Nov. 21, Flower street, No. 217, to wife of J. W. Fullerton, a daughter.

DEATH RECORD.

BOSWELL.—In Los Angeles, Cal., Amador C. believed deceased, K. R. Boswell, a native of Asbury, Cal., aged 5 years and 2 months.

Turner, aged 2, son of the Rev. George W. Turner, at the Cathedral, 2 p.m., Tuesday.

ERWIN.—In this city, Nov. 18, Margaret, a native of Iowa, aged 26 years.

Funeral from the home of Mrs. Tom Cunningham & O'Connor, Nos. 65 and 45, South Main street, Wednesday, November 20.

Funeral, Christ Church, 2:30 p.m. Wednesday.

LAWRENCE.—Miss Rebecca Lawrence, at home of Mrs. William F. West, No. 101 Main street, died at 1:30 Monday evening, aged 22 years.

Funeral, Christ Church, 2:30 p.m. Wednesday.

LOUTERBACH.—Frederick Louterbach of No. 381 West Pico street, at Soldiers' Home, died at 1:30 p.m. Saturday.

McKEE.—In San Francisco, Nov. 18, Otto McKee, aged 21, son of Robert McKee, a native of Brooklyn, N.Y.

Funeral from the home of Mrs. Tom Cunningham & O'Connor, Nos. 65 and 45, South Main street, Wednesday, November 20.

MAUCHLINE.—John Mauchline, at his home, No. 118 S. Twenty-fourth street, at 2 p.m., died of Bright's disease.

WINGWOOD.—In this city, November 17, Emma Marie, beloved wife of C. H. Wedgewood, aged 40 years.

Funeral, 1 p.m., from parlor of Booth & Boylston.

WILLIAMS.—In this city, November 17, 2001, Mrs. Anna Simpson, beloved daughter of Mrs. A. Simpson, a native of England, aged 31 years.

Funeral from parlor of Robert Sharp & Son, No. 61, South Spring street, today. November 19, at 2 o'clock p.m. Interment Evergreen.

Los Angeles Transfer Co.

Will check baggage at your residence to any point. Office, 618 Spring. Tel. M. 428.
